## Press Release

His Excellency, The President of  
United States of America  
Hon. Donald Trump

20<sup>th</sup> of January 2025

"March of Support for President Donald Trump in His Global Leadership against LGBTQIA+++ Woke Agenda"

The Mothers' Movement Sri Lanka would like to firstly congratulate Your Excellency, on your magnificent success to become the 47th President of USA and applaud Your Excellency, for the morality preserving stand you boldly took, that became a catalyst to forge your victory. Your Excellency, won the hearts and minds of the people of US and many nations, for your stand to defend the Rights of the Child, the Biological Woman and the Traditional Societal Nucleus of the family-

We have gathered as Mothers of Sri Lanka, in a March of Support outside the US Embassy in Colombo, on Your Excellency's assumption of office, to handover a congratulatory letter to you. This letter refers to the plague of the LGBTQIA+++ & WOKE Agenda, which is not only a social ill spreading across America but in Sri Lanka aswell. The LGBTQ agenda is against the treasured Sri Lankan traditions, religions and cultural norms. However, it has been forced upon our people and schools subtly and progressively by US Funding Agencies and Big Pharma Mafia. We can't allow this agenda to destroy our nation, as all religions practiced in Sri Lanka abhor this unethical and immoral coercion enforced upon us.

The Mothers Movement of Sri Lanka has relentlessly united against this agenda & we have raised rigorous awareness campaigns to prevent any legislative changes to legalize LGBTQIA++ in Sri Lanka, as the rights of the majority of our people, who are pro-life and conservative, cannot be infringed thereby.

Your Excellency's, stand against the LGBTQIA/WOKE Agenda, that targeted innocent children and made them victims of brainwashing and invasive surgeries resulting in life-long medications is applauded -as it is reversing an immoral "depopulating polluting trend" that has destroyed and castrated countless innocent children and adversely affected many families.

We stand as Mothers and join other Mothers of the World, in order to pledge our resolute support to Your Excellency, as you aim to reverse the damage already done by the LGBTQIA & WOKE Agenda.

We would like to humbly submit the following requests to Your Excellency & your New Administration:

a) The LGBTQIA and WOKE Agenda is being "unethically" forced upon us who are currently economically vulnerable as a nation, claiming it to be a "pre-condition" of US-IMF and World Bank hand-outs. Our appeal is to remove this condition, enforced upon us by the IMF, World Bank and

USAid, for the approving of any financial aid, assistance, grants or loans.

b) The US tax payer's hard earned money is being unethically used to fund LGBTQIA/WOKE/DEI programs across Sri Lanka promoting it amongst children, teens, Journalists, Lawyers, Medical Professionals, Law Enforcement Authorities, Educationists, Academia by US-funded NGOS, this immoral unethical propagation and perpetuation of evil must be stopped. Please be kind enough to issue instructions to immediately end such funding that promotes the implementation of LGBTQIA/WOKE and DEI initiatives.

c) There are many ways Sri Lanka and USA can forge better relations and we would like to champion meaningful collaboration between our two nations. "The Mothers Movement of Sri Lanka" can influence approximately 5 million mothers in our nation, who have a decisive and influential voice , to garner strong support for America throughout our Island. Therefore, funding and supporting such immoral initiatives brings disrepute and discredit to your acclaimed Great Nation. We want our people to see America as a Strong Ethical Partner in Progress and Security.

As Your Excellency takes the mantle of leadership for a second term in office & face daunting challenges to "Making America Great Again" (MAGA), we would like to extend our support as Mothers of Sri Lanka in all moral and developmental initiatives, that can unite us for the greater good of us all-especially our Posterity.

Thanking Your Excellency and Wishing You all Success in all Your Future Endeavors.
